

# SMOKER TRAILER

Our Smoker Trailer fit-out includes a fully compliant, mobile commercial kitchen. The trailer is designed to have a meat smoker, BBQ or spit roast on the rear veranda section and for chefs to stand inside and prepare food to be served to the customers on the outside of trailer.

With a lift up window for serving which offers the convenience of a canopy to protect from the weather. The trailer is built from bondor panel supported by a strong metal trailer chassis.

This unique unit is perfect for street eats including markets, and is sure to catch the attention of customers.

Contact us to chat about your new Smoker Trailer business today.

Pricing starts from \$34,990 +GST for your Smoker Trailer (not including equipment or power source).
